Make and Move Goods at the Speed of Demand

Zebra's fixed industrial scanning solutions

Can You Afford to Manually Track and Trace?

Manually collected data are...

Error-prone

Outdated

Inefficient

Leading to...

Misplaced Products

Accidental Reprocessing

Increased Bottlenecks

Higher Costs

Sluggish Productivity

Solve Your Most Critical Operational Challenges

Relieve pressures with Zebra's fixed industrial scanning solutions

**Boost
throughput**

**Increase
accuracy**

**Optimize
efficiency**

**Increase
savings**

Business Leaders Respond with Intelligent Automation

Addressing the new reality

From Inefficient Processes

To Optimal Workflows

Human errors
and inconsistencies

Workforce
challenges

Tedious,
manual checks

Automate
manual tasks

Improved productivity
and throughput

Work-in-process
visibility

Increase accuracy and speed with Zebra's fixed industrial scanning solutions

What Makes Our Portfolio Different?

Simplicity. Flexibility. Longevity. Value.

Deploy faster

Cut training time dramatically

Speed up decision making

Solve applications quicker

Customize as needed

Leverage an extensive library of tools

Interoperable, expandable licensing options

What Can Zebra Do With Fixed Industrial Scanning?

Virtually Everything

Scan Tunnel

Deep Learning-based OCR

Forklift Scanning

Dock Door Portal Scanning

Pack Bench Overhead Scanning

In-line Sorting

Pallet Scanning

Conveyor Routing

Tracking and Traceability

Print and Apply

Job Verification

Route Guidance

Solve Your Most Critical Operational Challenges

Hardware

Fixed Industrial Scanners

Track and trace from production to distribution

Easily keep track of every part and package with **Zebra's range of fixed industrial scanners**. Their upgradable features grow to meet evolving business needs.

FS10 Fixed Industrial Scanner

Easily track and trace items with Zebra's smallest fixed industrial scanner as they move through the warehouse and distribution center with USB plug-and-play.

FS20 Fixed Industrial Scanner

Integrates high-quality scanning to track and trace every item as it moves through production, storage and fulfillment.

FS40 Fixed Industrial Scanner

Broad capabilities meet complex barcode capture requirements and can be tailored to specific needs, with flexible options like decode range, illumination, variable focus, connectivity and power.

FS42 Fixed Industrial Scanner

New quad core processor for a customizable and powerful scanner crafted to seamlessly integrate into high-speed scanning operations.

FS70 Fixed Industrial Scanner

Completely customizable scanner facilitates challenging track-and-track operations. Choose from a variety of C-mount external lens and lighting options to achieve the working range and field of view the application and environment requires.

GS20 Connectivity Gateway

A powerful industrial connectivity gateway enables scan tunnel configurations to substantially increase package tracking and sorting throughput.

FS10 Fixed Industrial Scanner

This compact device easily fits wherever you need scanning

Ultra-Rugged design

IP65 & IP67 sealed

Operator interface

Feedback and status indicators
Manual Trigger & Autotune

Plug and play

High speed Powered
USB with configurable IO

LED-Aimer

1MP monochrome
Sensor and liquid lens

Monochrome

Powerful integrated lighting

FS20

Easily integrate industrial scanning and machine vision into your network

FS40

Comprehensive features including range illumination and connectivity

Powerful integrated lighting

Liquid lens

Standard 30 degree and
Wide Angle 46 degree

Ultra-Rugged design

IP65 & IP67 sealed

Power & IO

24VDC, PoE, USB 3.0
Superspeed, configurable IO

**Adaptable
Mounting**

Options on three
sides of the unit

Operator Interface

Feedback and status indicators
Manual Trigger & Autotune

**Extensive Filter
Options**

LED-Aimer

**2MP or 5MP
Sensor**

Monochrome

**360 Degree Decode/Job
Status LEDs**

Dual M12 Gigabit Ethernet
X-Coded / ODVA Compliance

External Light Power
With control/GPIO

FS42

An unbeatable combination of features, flexibility and power

Extensive Filter Options

Liquid lens

Standard 30 degree and
Wide Angle 46 degree

LED-Aimer

Power & IO

24VDC, PoE, USB 3.0
Superspeed, configurable IO

360 Degree

Powerful
integrating lighting

Ultra-Rugged design
IP65 & IP67 sealed

Ultrafast quad
core processor,
NPU and new
ASIC

8GB Memory

Adaptable Mounting

Options on three
sides of the unit

FS42

Enhance operational visibility with the latest
fixed industrial scanner

New ultra-fast processor – **Quad core plus NPU and new ASIC**

Double the memory – **8GB**

New resource-intensive applications:

- **AI Deep learning-based OCR** - faster reading speed to quickly capture text information without the need for font training
- **Good Image Anomaly Detection***, a new QA tool that flags any deviations from a “golden standard” reference image.

*Available in a future release. Contact your Zebra Partner or sales representative for more information

FS70

Customizable to meet your scanning and inspection demands

Adaptable Mounting

Options on three sides of the unit

Power & IO

24VDC, PoE, USB 3.0
Superspeed,
configurable IO

External Light Power

With control/GPIO

Ultra-Rugged design

IP65 & IP67 sealed

Dual M12 Gigabit Ethernet

X-Coded / ODVA
Compliance

Operator Interface

Feedback and status indicators
Manual Trigger & Autotune

360 Degree Decode/Job Status LEDs

2MP or 5MP Sensor Monochrome

Configurable Optics and Lighting

Support any external C-mount lens, filters and external lighting

GS20 Connectivity Gateway

Next-generation scan tunnel architecture

Software

Zebra Aurora Focus™

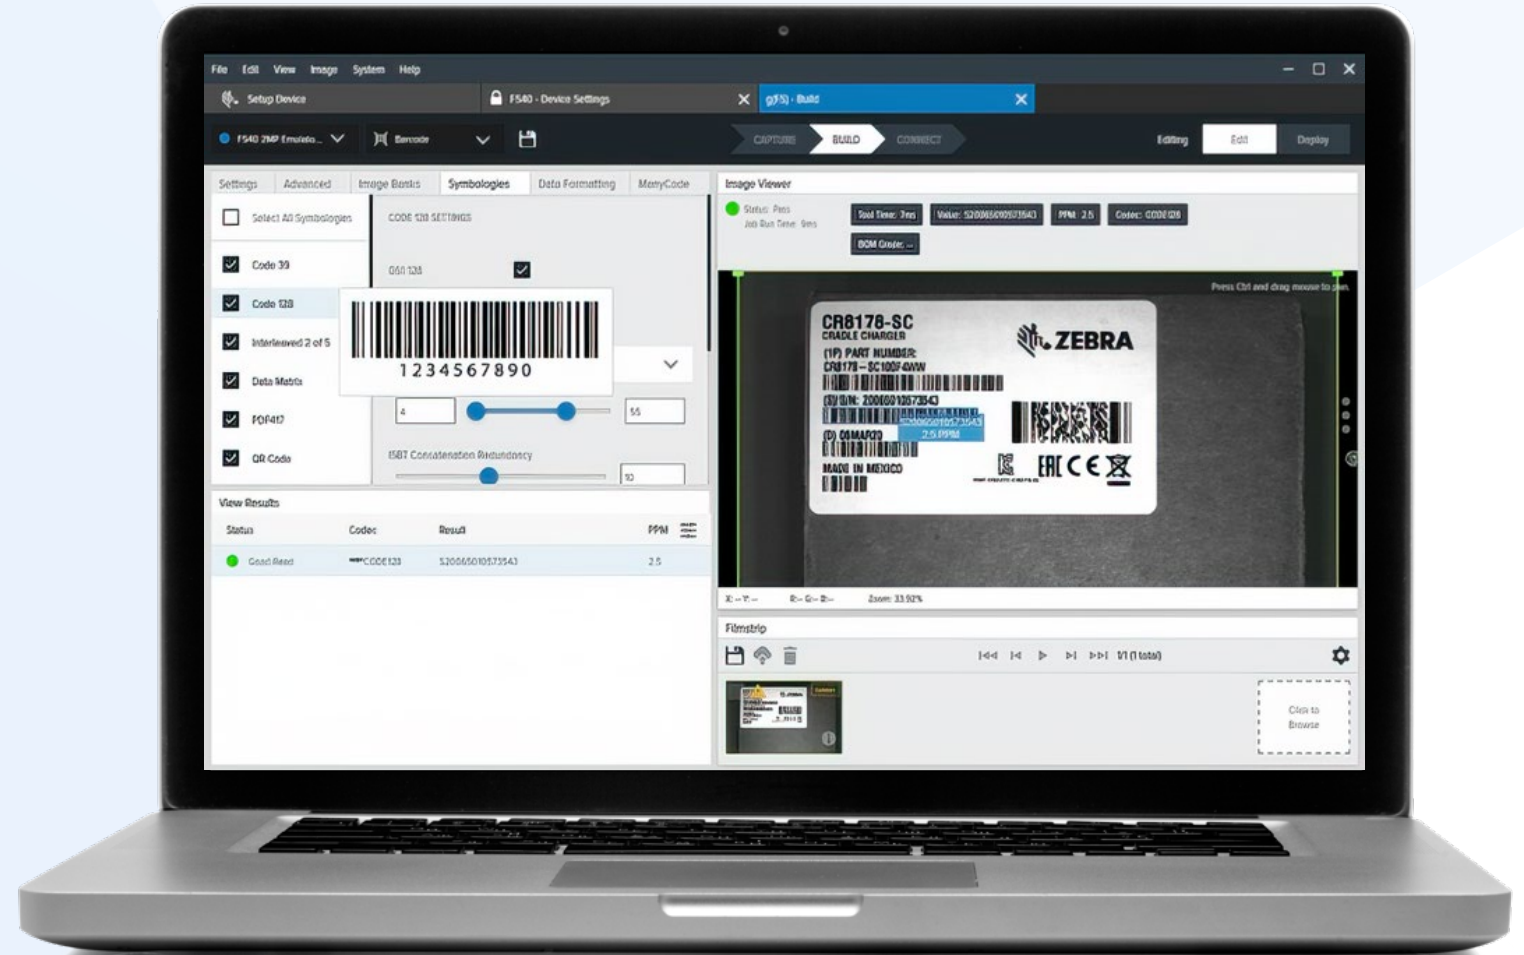

Experience plug-and-play for Zebra's fixed scanners

What it is:

- On-device software for Zebra's fixed industrial scanners

What it does:

- Ready-made for barcode reading and verification, OCR, and presence/absence vision inspection
- Workflow organized into 3 easy steps:
 1. **Capture** the best images for the job
 2. **Build** and create jobs quickly, adding and configuring tools as required
 3. **Connect** and interface with systems

Automatically Achieve Quality

Instantly capture even the most challenging barcodes

Pair Aurora Focus with Zebra FS models for **unmatched fixed industrial scanning**.

Aurora Focus features a simple interface for configuring scanner connections. The software is purpose-built to scan and compare barcodes (1) for traceability and tracking, (2) to determine code quality, and (3) to assess whether code quality impacts scan ability.

Device Compatibility

The screenshot shows the Aurora Focus software interface. On the left is the 'Settings' panel with the 'Advanced' tab selected. On the right is the 'Image Viewer' panel showing a scanned barcode.

Settings Panel:

- Decode Strategy: Fast
- Detection Method: Finder Pattern
- Allow Rectangular Codes:
- Enable Aim Code Identifier:
- Expected Module Size (pixels): 4 (slider range 4 to 20)

Image Viewer Panel:

- Status: Pass
- Job Run Time: 3ms
- Tool Time: 2ms
- BDF Display Value: S20065010573543
- PPM: 2.5
- Codec: CODE128
- BOM Grade: --

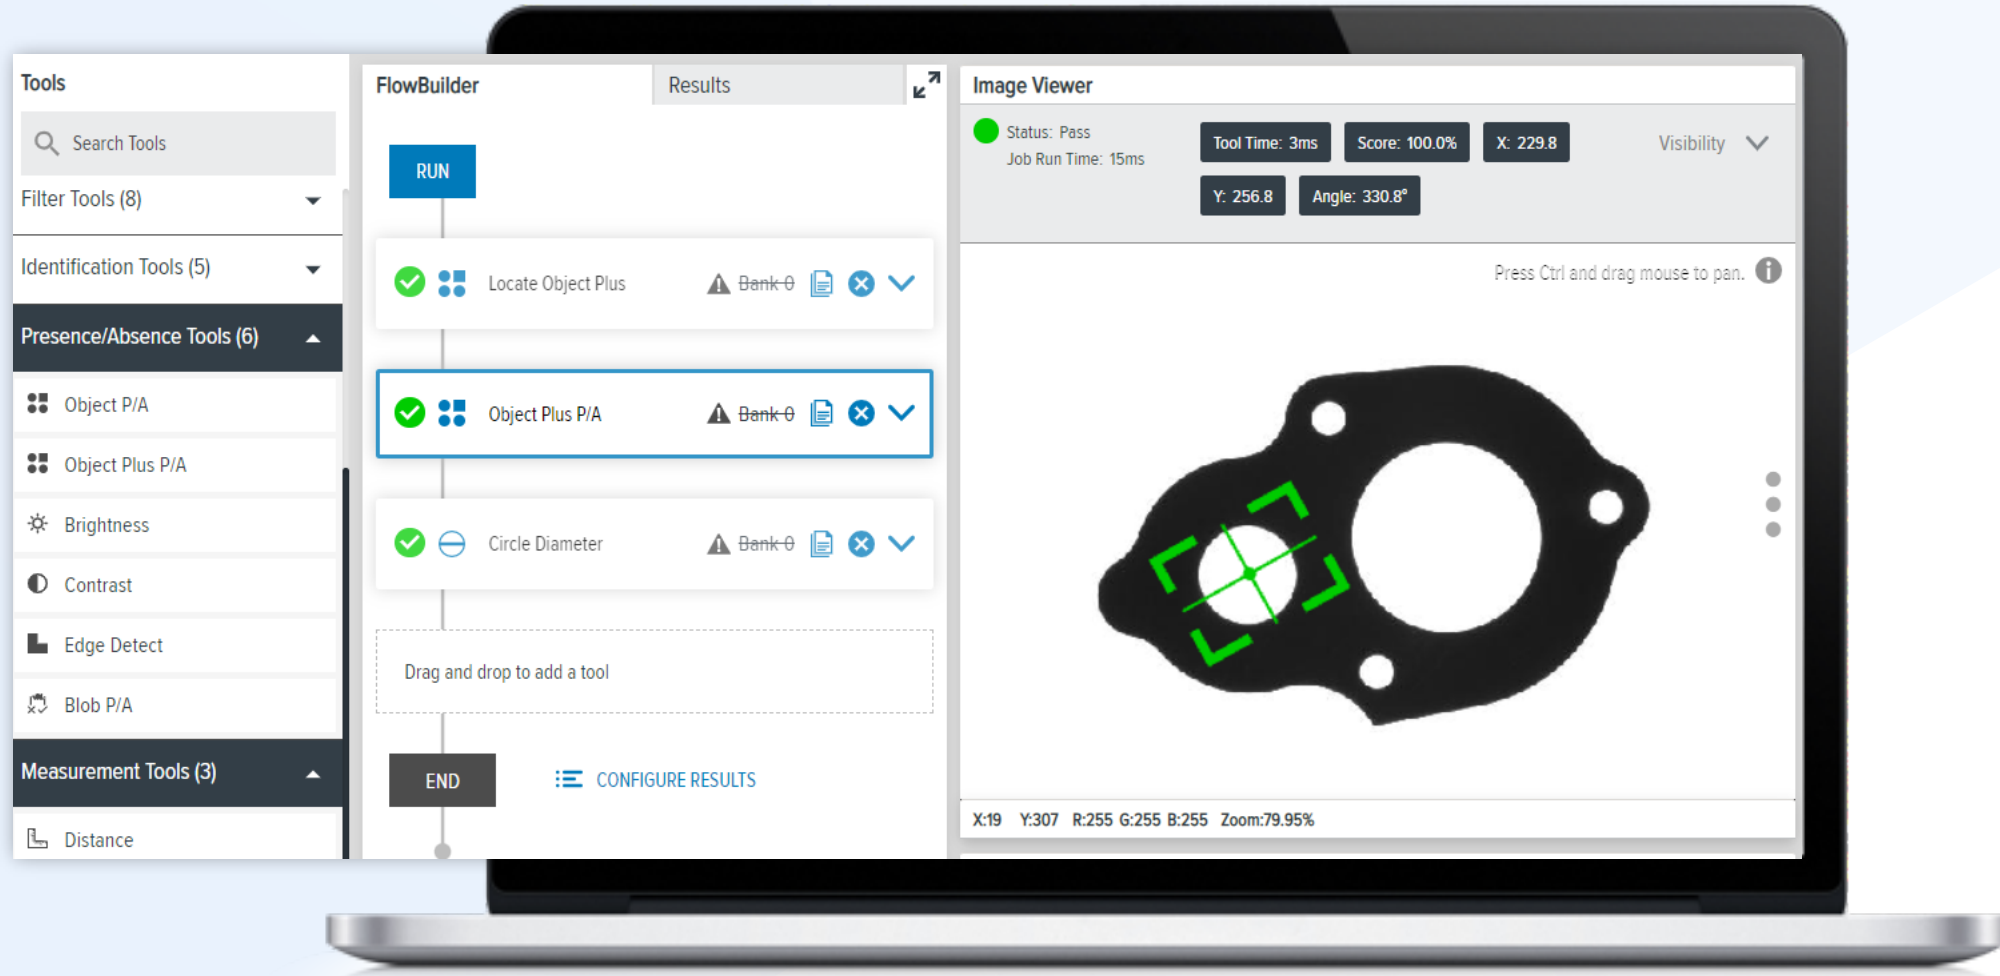

Barcode Data:

CRADLE CHARGER
(1P) PART NUMBER:
CR8178-SC100F4WW
S20065010573543
(S) S/N: 20065010573543
(D) 06MAR20
MADE IN MEXICO
2.5 PPM

Status	Codec	Result	PPM
Pass	CODE128	S20065010573543	2.5

Upgrade from Fixed Industrial Scanning to Machine Vision

Without the need to 'rip and replace' or add components

Use Cases

Dock Door Portal Scanning

Capture package data upon entry and exit to improve inventory accuracy

Key capabilities:

- Multi-sided barcode reading
- Pallet verification
- Asset tracking

Zebra product offerings:

- Zebra FS42 / FS40
- Aurora Focus Software

Why Choose Zebra To Build Your Dock Door?

How our solutions stand apart

Proven high-speed barcode reading with unmatched accuracy that improves efficiency and overall throughput

Innovative sensors and smart cameras available in various sizes to accommodate any field of view

Powerful software to read and decode OCR, barcodes, dimensional information and label defects

Seamless integration with existing automation equipment

Cost effective, customizable solutions

Easily pair with other Zebra devices such as mobile computers and industrial printers for a **single-source solution**

Rugged design to sustain harsh environments and reduce maintenance and down-time

Trust an **award-winning** partner ecosystem who are experts in vision technology

Forklift Scanning

Increase safety and efficiency, simultaneously

Key capabilities:

- Barcode reading
- RFID reading
- Pallet verification
- Inventory accuracy

Zebra product offerings:

- Zebra FS42 / FS40
- Aurora Focus Software

Why Choose Zebra To Build Your Forklift Scanner?

How our solutions stand apart

Proven high-speed barcode reading with unmatched accuracy that improves efficiency and overall throughput

Innovative sensors and smart cameras available in various sizes to accommodate any field of view

Powerful software to read and decode OCR, barcodes, dimensional information and label defects

Seamless integration with existing automation equipment

Cost effective, customizable solutions

Easily pair with other Zebra devices such as mobile computers and industrial printers for a **single-source solution**

Rugged design to sustain harsh environments and reduce maintenance and down-time

Trust an **award-winning** partner ecosystem who are experts in vision technology

Packing Bench

Boost worker efficiency by up to 33%

Key capabilities:

- Multi-sided barcode reading
- Package reading
- Seamless integration with Zebra printers

Zebra product offerings:

- Zebra FS10 / FS40
- Aurora Focus Software
- Zebra Printers

Why Choose Zebra To Build Your Packing Bench?

How our solutions stand apart

Proven high-speed barcode reading with unmatched accuracy that improves efficiency and overall throughput

Innovative sensors and smart cameras available in various sizes to accommodate any field of view

Powerful software to read and decode OCR, barcodes, dimensional information and label defects

Seamless integration with existing automation equipment

Cost effective, customizable solutions

Easily pair with other Zebra devices such as mobile computers and industrial printers for a **single-source solution**

Rugged design to sustain harsh environments and reduce maintenance and down-time

Trust an **award-winning** partner ecosystem who are experts in vision technology

Scan Tunnels

Scan a stream of packages with multiple barcode labels on up to 5 sides

Key capabilities:

- Multi-sided barcode reading
- Conveyor tunnels
- Dock door portals
- Pallet reading
- Tote reading and sorting
- Zone routing

Zebra product offerings:

- Zebra FS10 / FS20 / FS42 / FS40
- Zebra GS20
- Aurora Focus Software

Why Choose Zebra To Build Your Scan Tunnel?

How our solutions stand apart

Proven high-speed barcode reading with unmatched accuracy that improves efficiency and overall throughput

Innovative sensors and smart cameras available in various sizes to accommodate any field of view

Powerful software to read and decode OCR, barcodes, dimensional information and label defects

Seamless integration with existing automation equipment

Cost effective, customizable solutions

Easily pair with other Zebra devices such as mobile computers and industrial printers for a **single-source solution**

Rugged design to sustain harsh environments and reduce maintenance and down-time

Trust an **award-winning** partner ecosystem who are experts in vision technology

Deep Learning-based OCR

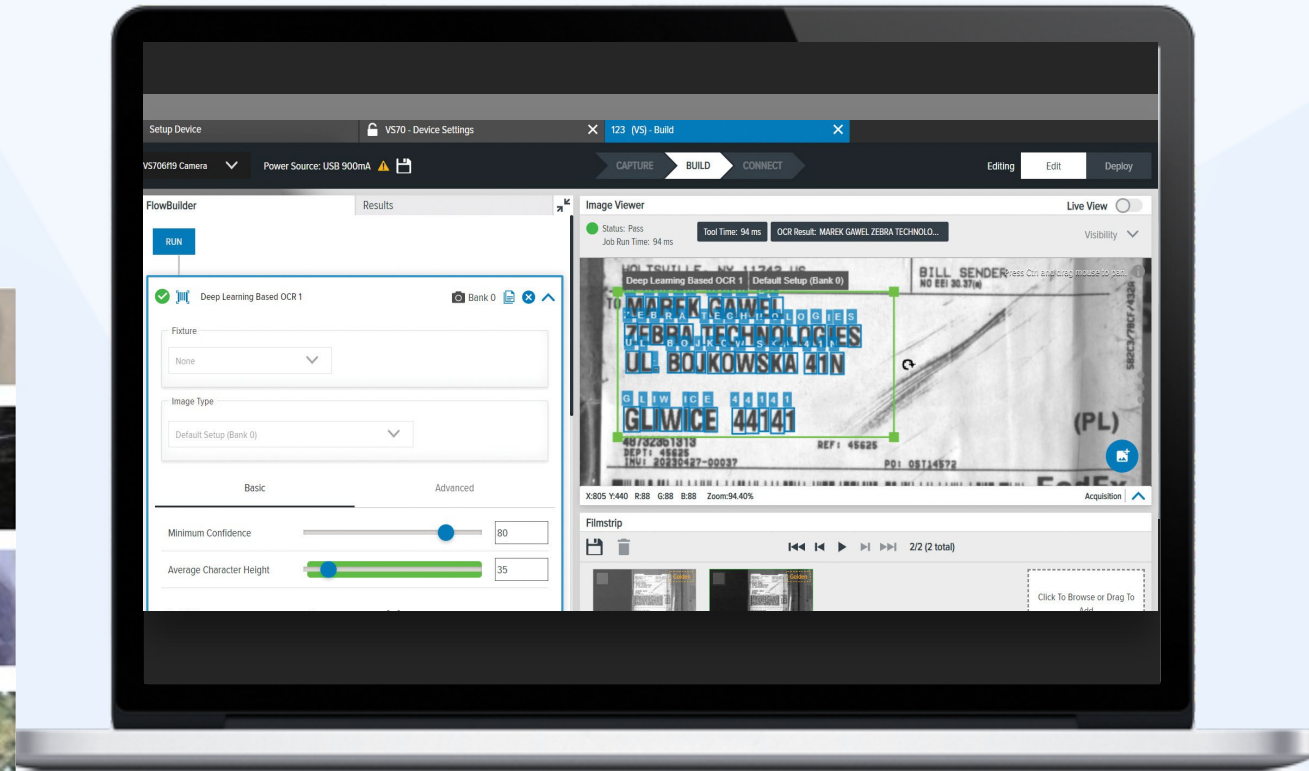

Easily capture text information on parts, labels and more

Key capabilities:

- Date and lot codes
- Batch codes
- Expiration date codes
- Label verification
- Quick deployment
- No coding or programming
- No training required

Zebra product offerings:

- FS42
- FS40 / FS70

Services

Zebra OneCare™ Maintenance Plans

Protect your investment your way

More than just repair, Zebra protects your technology from the inside out—and the operational outcomes you expect from it.

Feature	Zebra OneCare Technical and Software Support (TSS)	Zebra OneCare Essential	Zebra OneCare Select
	Standalone technical and software support	Core assurance	Maximum protection
Live-agent support	Mon–Fri, 8–5 local time	Mon–Fri, 8–5 local time	24/7
Repair turnaround time	3-day repair turnarounds		“Like-new” replacement device ships for next-business-day delivery
Coverage		Accidental damage	Accidental damage
Software updates	✓	✓	✓
Cloud-based visibility into repair, case reports and more with VisibilityIQ OneCare**	✓	✓	✓
Spares Pool Management	✓	✓	✓

Services Offered

Industrial machine vision and fixed scanners

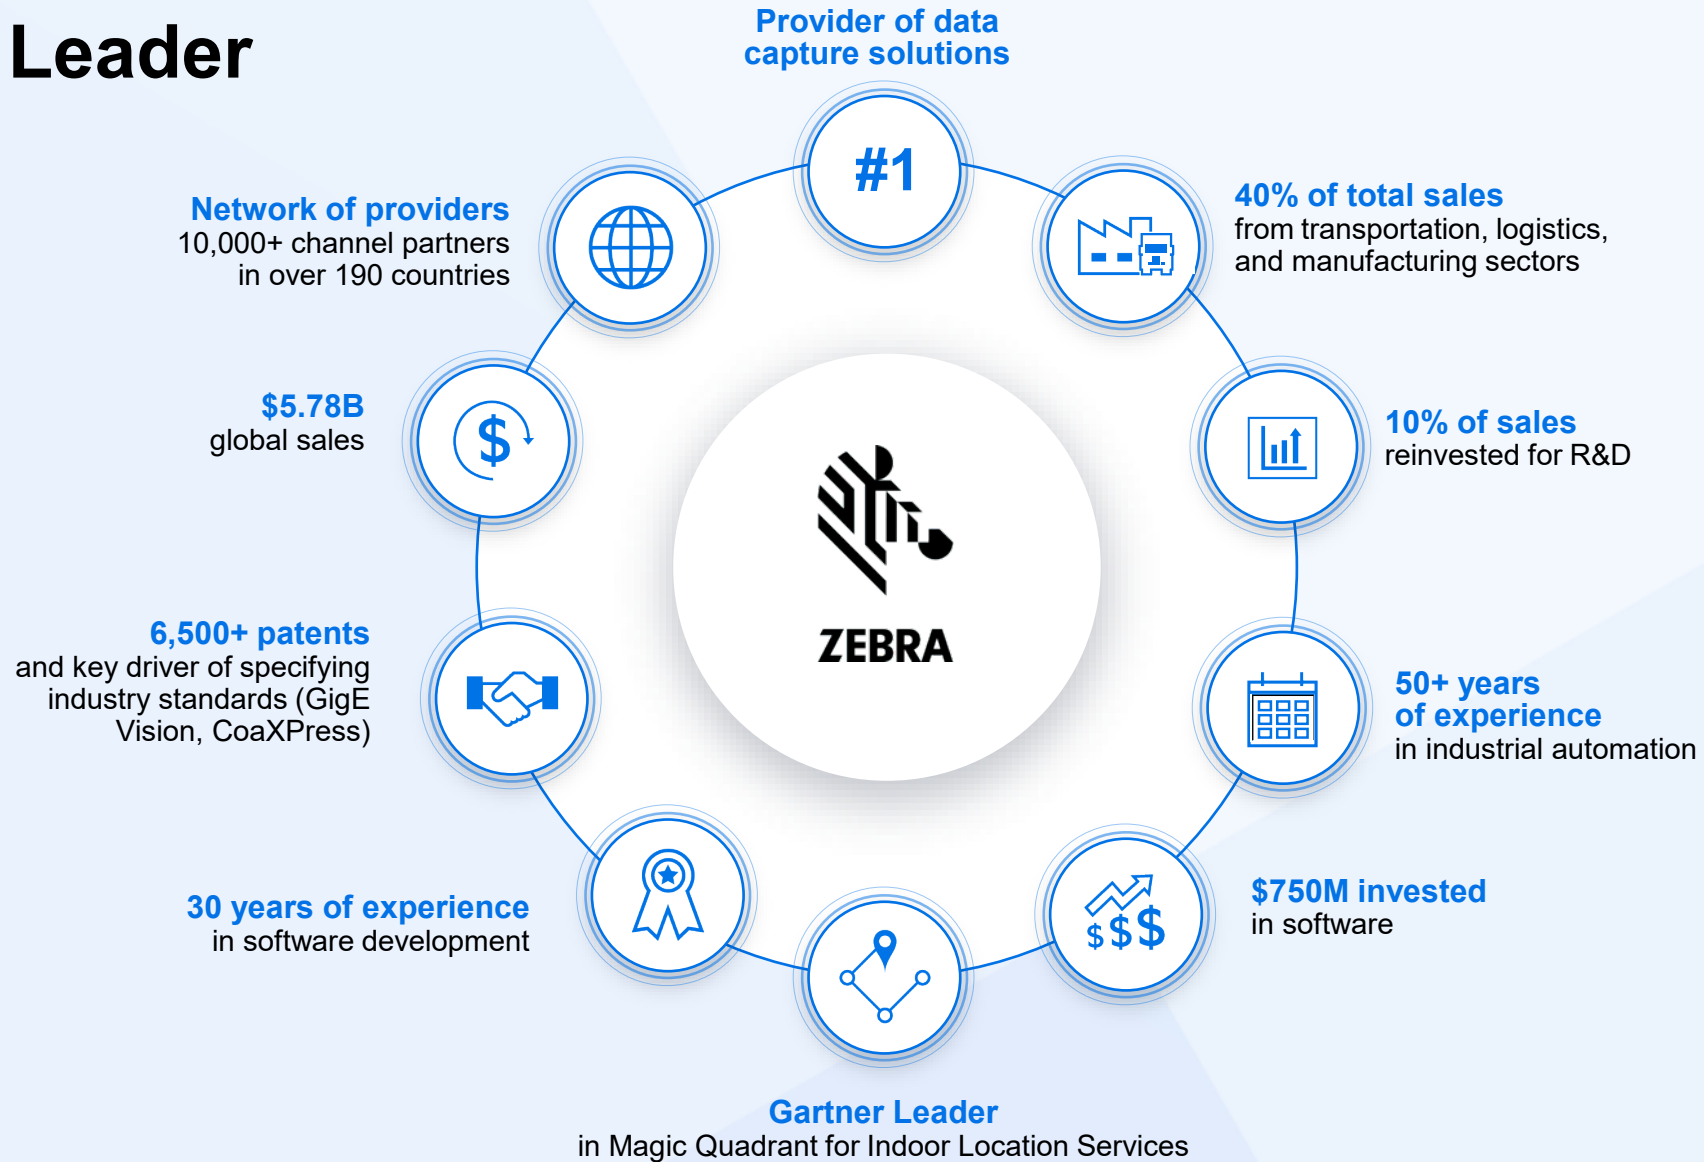

Zebra OneCare Level	Fixed Scanners and Machine Vision Cameras	Machine Vision Products
	VS, CV, GS and FS families	Former Matrox Imaging products
Zebra OneCare Essential		Not available
Zebra OneCare Select		Not available
Zebra OneCare Technical and Software Support (TSS)		 Available Oct 2023 for Software Developer Kits (Aurora Imaging Library and Aurora Design Assistant).

You Need It. We've Got It

One source. One portfolio.
Endless opportunities

Partner with a Proven Industry Leader
